

Aquapure™ pH Down

Aquapure pH Down is a non-fluoride bearing dry acid salt which may be used in place of sulfuric acid. It is used for pH adjustment in waste treatment systems.

Aquapure pH Down may be used with any type of pH or ORP probe.

Features & Benefits

Safer to use	Cuts down on the hazards of using a concentrated sulfuric acid
Readably soluble, ease of storage	Soluble in water. Can be stored at any temperature in warehouse
Controlled acid reaction	No fuming, heat or generation of mists

Waste Disposal

Aquapure pH Down is acidic. It should be neutralized with caustic to a pH of 6.0 – 8.0 or whatever the discharge permit requires. Allow any solids to settle. Dispose in accordance to local regulations.

Caution

Aquapure Ph Down is an acidic product and should be handled accordingly. Avoid skin and eye contact. Wear protective clothing, gloves and goggles when handling the product. Flush exposed areas immediately with clean, cold water. Contact a doctor immediately in case of injury.
